## BIG TRANSFER OF PROPERTY BEING CLOSED

### Thomas Coal Holdings Taken Over By Bay Syndicate

## MEANS LOT TO COUNTY

### Strong Vein Of Good Grade of Coal is Now Showing

A. L. Fisher, and Frank T. Thompson, of Oakland, are in the city to close a deal for 1040 acres of land in Eden valley on which a valuable vein of coal is located and which has recently been acquired by the Oaklanders and others from W. P. Thomas and associates. The property is located six miles from Dos Rios. Six months ago the new owners began opening up the mine and have now gone in between 400 and 500 feet, uncovering a strong vein. The plan is to ship from Dos Rios, probably a coal hauling road will be constructed from the mines.

**Chances to Invest**

The intention of Messrs Fisher and Thompson i sto offer about $15,000 in stock to local people. No effort is to be made to float a stock or bond issue of any kind, but, if Mendocino county people wish to go into the enterprise, up to a certain extent, they may do so by seeing Mr. Thompson or Mr. Fisher while there.

**Promoters are Reliable**

The general belief is the coal property will prove to be a very valuable one and the men now taking it over are known to be experienced and reliable.

## *December Programs At The State Are Strong*

Perusal of the December program of The State Theatre reveals that, nothwithstanding the fine attractions which have appeared there recently, the offerings for the month are stronger than any previous like period. The truth is most of the features are masterpieces and the educational, comic and short films are far above the average. You will not miss high-class entertainment if you visit the State Theatre any night this month.

The stage settings and the extremely lighting effects about the theatre have brought fourth many compliments of late.

## *Bad Check Man Now Working in the North*

Deputy Sheriff Ward M. Ries is at Eureka where he is trying to locate Paul Foster, formerly employed on a coast newspaper and who is alleged to have deposited $27.50 in a Fort Bragg bank and then to have greatly overdrawn his account, writing a score of worthless checks.

### SUIT ON NOTE

Robt. McKinley has started suit to collect on a note for $4,000 alleged to be due by Otto Prinz.

### JURY DISAGREES

Not to the fact there was not a great deal of unfavorable evidence against him, but more to dence against him, but rather to the very clever manner in which Attorney M. H. Iversen handled his defense should Oscar Erickson attribute his recent escape from conviction on a charge of criminal syndicalism in superior court. There was a very formidable array of alleged facts which had to be overcome and the state case was taken care of in a masterly way by District Attorney Hurley, but the finished manner in which Attorney Ivensen laid stress on the wouth of the prisoner, his former good character and the fact no overt act had come out of the alleged agitation of the boy, caused the jury to divide and remained so.

## FREAK WRESTLER TO APPEAR ON MONDAY

### Man Who Grapples Most With Legs To Meet Paul Poulos

As clever a wrestling match, probably, as ever was seen here is scheduled to take place Monday evening at American Legion hall when Paul Poulos, of this city, and George Barnes, of Portland meet.

**Has a Freak Method**

It is claimed for the stranger he has one of the most peculiar styles of wrestling to be seen anywhere, in that he uses his legs more in his wrestling than he does his arms. The assertion is made Barnes is able to "pin" a man with his legs. He is big, young, husky and quick and with all of the features which go to make up a good wrestler possessed by him he should be able to make the local man work every minute of the contest.

**Pick Poulos as Winner.**

Poulos ,however, has the full confidence of the Ukiah people and he is, naturally, picked as the winner. Nevertheless, there is little question but that Barnes, who has been wrestling professionally in the big theatres of the country under an agreement to throw all comers, will prove the toughest customer Poulos has encountered.

**John Maurus to Appear**

John Maurus, for years physical instructor of the Olympic Club, of San Francisco, will come up to referee the main event and has agreed to take on Peter Miller, the Ogden, Utah man who wrestled Eddie Wallace at the last match. The pavillion will be comfortably warmed and prize turkeys and boxes of candy will be awarded lucky ticket holders.

**To Commence Early**

The bouts will start at 8:30 and will be hurried along. Tickets are on sale at Morty's, The Maple and Nelson's Usual prices will prevail.

### MARRIAGE LICENSES

## DANGEROUS TURNS CAUSE TRUCK WRECK

### Winding Highway adds Another Mishap—Is Wrongly Located

Wreck after wreck and accident after accident take place on the man-killing turns of the highway between here and Cloverdale with appalling regularity. Yesterday motorists traveling south observed two giant trucks wrecked at the Hood place, south of Hopland. One of the machines was loaded with furniture and the other was an oil tanker o fthe State Highway Commission. It would seem as if the furniture truck went head-on into the tanker, wrecking it badly.

**On Wrong Side**

As the state highway now is located autoists are forced to climb up the mountains steadily in order to roll down the other side. When the survey was made years ago the claim was advanced that, because of the blue slides about Pieta, it would not be possible to make a highway along the Russian river. However, since then engineering has advanced greatly and there is now believed to be no reason why the highway should not follow the beautiful stretch of country between here and Cloverdale, along the Russian river. The grade is almost perfect, the distance shorter and the scenery much lovlier. Most people hope, when the time comes to pave the stretch, the commission will decide to come up the Russian river.

## *$400 Returned By A Ukiah Laundryworker*

A news item out of the ordinary arose through a conversation with a local man the other day, who said:

"In talking with a friend of mine recently, who, by the way, is a woman from the East, she said she came to Ukiah some months ago for her health and had decided she would never spend another winter back in Pennsylvania, for the climate here was perfect, or as near perfect as could be found anywhere. She also said she supposed there were many honest men here, but surely she knew one, and she felt very grateful to him for he had saved her reputation in a most unconscious way. This woman has charge of several rooms at the Palace Hotel, and in sending the linen to the laundry, a billbook containing nearly $400, left in a pillow case by a guest, got near the washer when the laundryman, Mr. Stevenson, saw it and returned it to the hotel office. Had it not been for his honesty, she would have been placed in a very embarrassing position, and in telling the story the woman said she felt more grateful than she would have, it the money had belonged to her."

## *Football Benefit Had A Capacity Audience*

Ukiah was afforded a splendid opportunity to pay tribute to the high school football players Monday evening at the benefit performance at the State theatre. When the curtain went up at eight o'clock practically every seat was filled and every number was well received. The program included novelty musical acts and an exceptional screen show. The fund derived from the entertainment will be used to meet obligations of injured football players.

They remained until the first of the week. Speaking of the highway between Ukiah and Eureka, Mr. James said he had never seen it in as good shape as it now is.

### IN THE BOOBY HATCH

Filbern and Richard Knight, two natives who started a rapid-fire auto stealing campaign, were arrested recently on the Pt. Arena-Boonville road by Deputy Sheriff Ries. At the time they had a rented car and were getting out of the county. Before that they had stolen a machine and wrecked it in Anderson Valley. Four weeks ago they stole a Chevrolet car and drove it from Santa Rosa to Ukiah. They then went to the woods and got work but soon thereafter stole another machine, one belonging to Joe Pinole. Right after that they took another Ford and this they wrecked near Philo. Judge H. L. Preston gave the pair six months in jail and they are now working on the wood pile.

## WILD AUTOIST KILLS WOMAN ON HIGHWAY

### Burtal Driver Mangles Victim and Escapes Few Clues Had

Despite the fact the killing of Mrs. Jim Knight took place about dusk Thursday evening and that it is almost certain a big, heavy car hit the unfortunate victim and that the driver of the machine could not possibly have failed to be aware of the fact he had struck the woman, not a trace of who the slayer of the unfortunate native was has been learned up to the present time.

Mrs. Knight had been walking along the highway, accompanied by her husband and when they got to a point just opposite the entrance to the C. J. Cox ranch Mr. Knight went to the Cox house, leaving his wife alone on the highway. He was absent but a few minutes and returned to find Mrs. Knight fatally injured. The poor woman could hardly articulate, being able however, to mutter "automobile" and point in a northerly direction. Quickly afterward she lapsed into unconsciousness and died. Her neck was broken and her body crushed and mangled.

**Suspect was Released**

A machine at Willits was found to have had battered fenders and this car was held up and the occupant questioned, but later on relieved of all suspicion, having proven he was not the party.

**Want Slayer Arrested**

There is a general clamor everywhere the guilty driver be apprehendod and an example made of him. Recklessness in driving has been on the increase hereabouts and the fatality list is bound to be increased unless drastic measures are had.

**Killed About 6:10 O'clock**

The last time the victim was seen by anyone, except by her husband, she was observed by County Clerk Prather and this was shortly before six o'clock. The killing took place about 10 minutes after six.

**Husband of Victim Saw Car**

It is also understood the hushand o fthe slain Indian woman said he saw the car without lights, but did not get enqugh of a description to help tracing it.

**Driver Not a Stranger**

Notwithstanding the fact nothing has been obtained in the way of evidence to fasten the guilt on anyone hereabouts. Those who are working on the case have come to the conclusion the man who ran down Mrs. Martin lives hereabcuts and will eventually be apprehended.

At the coroner's inquest held at the

## NEGROES' WAY DISCARDED—A NEW PLAN USED

### Boonville Resident Is Victim of a Modern Turkey Thief

## BLINDED THE GOBLERS

### Small Caliber Rifle Carried to Kill Startled Birds

C. O. Dightman, of the Anderson valley section, is fully convinced the world is advancing along all lines, even in the theft of poultry. He, of course ,had knowledge of the crude manner in which a negro with a gunnysack was wont, years ago, to fall afoul of some neighbor's hen roost and tote off fat hens, but he had no actual experience with a turkey thief de lux until recently. However, losing turkeys he became suspicious and laid a trap Yor the purloiner, as he believed. He was successful, for, according to a story at the district attorney's office, Mr. Dightman, as a result of a watch kept on his turkey roosts, came upon a man who carried a 22-caliber rifle and a flash light, the latter devise being used to blind the startled birds while the thief dispatched them with a bullet.

**May Be Prosecuted**

A complaint will likely follow and if the evidence is what it is claimed it is, prosecution will result.

## HONOR DISPUTED

### Reader of Press 35 Years Is Not Old Timer, Evidently.

Last week The Republican Press mentioned the fact G. A. Smart, of Willits, recently said he had been reading The Republican Press for 35 years and a comment was made this was quite a time for a subscriber to have continued taking a newspaper. However ,this week Dr. George McCowen ,of this city, checked up and found he had been a continuous subscriber of The Republican Press for 48 years. Dr. McCowen ,probably is as old a continuous subscriber as will be found on the lists of almost any country newspaper.

Mrs. Helena Cox will leave shortly for San Francisco, Oakland and Calistoga, at the latter place Mrs. Cox will visit a number of weeks with her mother, Mrs. Anna Kannelley, who only recently celebrated her eighty-eight birthday.

## DISPLACES ORCHESTRA

### State Hospital Will Get High-Class Music Hereafter.

Because it was found almost impossible to obtain men who could perform duties required of them at the asylum and at the same time play in the asylum orchestra, Superintendent D. R. Smith decided some time ago to dispense with the orchestra and, by using the fund created by interest on money belonging to inmates, and which cannot be segregated, a fine Fisher Grand piano with an Ampico attachment was obtained. While the instrument operates somewhat on the line of a player piano, it is a vastly superior music creator. So perfect is it that, in reproducing the airs of the masters, every detail is brought out and there is no "canned" air about it. The piano fills a long-felt want of providing a means to give superior music for the patients who can appreciate the finer quality of music. Sometime during the middle of the coming month a concert will be held at Talmage and, probably the public will be invited to attend it.

Dr. and Mrs. R. D. Mace returned Sunday from the bay cities where they motored earlier in the week to attend the big game Saturday.

Mr. and Mrs. Edgar Dutton reached home Monday evening from a visit in Berkeley and San Francisco. Both were interested spectators at Saturday's football game.

By so doing he has secured a very much greater output.

## Poem by Uncle John

O, the old feather bed was a package of joy, when draped in its trappings of state. . . . If I had a legion of words to employ, I'd use 'em, lamentin' its fate. We've banished the goose-hair, an' took the pad of corn-shucks, an' shavin's, an' moss. . . . Till I am afflicted an' gloomy an' sad, at the mattress they stretched me across! I'm weary in muscle—distracted in bone—and it don't help me any to cuss. . . . It might be more healthy to bunk on a stone, but it's equal to sickness, or wuss! I dream of the feathers that cushioned my frame, in the halcyon nights of the past. . . . We were born on the feathers, an' died on the same, and the grandchildren got 'em at last. . . . O, the old feather bed was a builder of dreams—a cure fer all species of wrath—we sunk in its blubbers an' sweat in its seams—an' nobody needed a bath. . . . It may have helt microbes an' vermin galore, from the spores of the flea to the toad, but it had 'em all skinned as a good place to snore, and we broke out with heat, when it snowed!

### THE TRUTH
### "—is also found in frank confession of error"

*The Republican Press will be glad to receive and publish corrections of inaccuracies in its columns.*

### THE JOHNSON ASPIRATION

ABOUT the state one hears rumblings of what will probably be a fight to a finish. Although the Richardson element is not out in the open, so far, it is extremely probable the state administration will be found doing all it can to prevent the state delegation to the national convention being for Senator Johnson for president. What the outcome will be is extremely doubtful.

Candidly the Johnson campaign is not receiving the support in the east it was thought it would. Taken at random, the following extracts from metropolitan newspapers of the east, indicates a lack of sympathy with the Johnson cause which, if it represents the actual sentiment prevailing, is going to make it hard to figure out how Senator Johnson is going to "get away." The Brooklyn Eagle says: "The strength that Johnson may draw from Republican discontent, particularly in the West and Middle West, will have to be very large to overcome the distrust in which he is held by the more conervative party elements."

The Hartford Courant says: "We hope and believe that it is impossible that Johnson will be nominated for President by the Republican party. Nor does this paper believe that he will find any country-wide enthusiasm for his candidacy outside that party."

The Detroit News antagonistically declares: "The people of the United States have yet to elect to the presidency a man who announced to them that he was their self-appointed candidate. But there are other reasons why they should look askance at Senator Johnson's voluntary candidacy."

"The task that confronts Senator Johnson is a pemanent one," the New York Evening Post writes. "He must make himself the perpetual prophet against backsliders, the perpetual guardian on the towers of our national safety; the perpetual candidate, in short. The Hiram Johnson conception of foreign policy of the United States calls for a permanent holy war of the isolators against vacillators."

The Boston Transcript has supported Johnson in his stand against the League of Nations, but it now finds itself faced with the candidacy of the Californian as against that of President Coolidge, former Massachusetts Governor.

"With all that Senator Johnson says in his Chicago statement concerning what our foreign policy should be we are in the heartiest accord. All that and more we hope to see it become under the leadership of President Coolidge. In temperament and method Johnson and the man in the White House are far apart, further probably than they are in their governmental aims. Mr. Coolidge is a moderate who cherishes a conservative philosophy of life; Mr. Johnson a radical with a direct program. Mr. Coolidge a believer in party government and the representative method; Mr. Johnson prefers direct action to representative and lacks the sense of party sponsorship in government which has always distinguished the man in the White House.'

### REAL SUCCESS

HERE is a bit of reading worth while. After you have perused it once, set it aside and read it again. It will make you better through having done so. The author is, to The Press, unknown:

When he can look out over the rivers, the hills and the far horizon with a profound sense of his own littleness in the vast scheme of things, and yet have faith, hope and courage, which is the root of every virtue. When he knows that, down in his own heart, every man is as noble, as vile, as divine, as lonely as himself; and seeks to know, to forgive and to love his fellow man. When he knows how to sympathize with men in their sorrows—even in their sins, knowing that each man fights a hard fight against many odds. When he has learned how to make friends and keep them; and above all to keep friends with himself. When he loves flowers; can hunt the birds without a gun; and feels the thrill of an old forgotten joy when he hears the laughter of a little child. When he can be happy and high-minded among the meaner drudgeries of life. When no voice of distress seeks his aid without response. When he finds good in every faith that helps and sees majectic meaning in life, whatever the name of that faith may be. When he can look into a wayside puddle and see something beyond mud, and into the face of the most forlorn fellow mortal and see something beyond sin. When he knows how to pray; how to love; how to hope. When he has kept faith with himself, with his fellow-man, with God; in his hand a sword for evil; in his heart a bit of a song; glad to live and not afraid to die. Such a man has found the only real secret of success.

Long Distance Service

FROM fifteen to twenty-one telephone operators cooperate in establishing a New York-San Francisco circuit; and other telephone employees by scores must be at their posts to insure efficient transmission.

That you may have a choice of destination for your voice, a vast network of Bell System circuits interconnects all important centers, reaching millions of homes and business places.

Over these circuits more than 158,000 traffic employees stand guard. But long before these highways of speech were ready for use another army of workers had wrestled with problems of construction and maintenance.

A huge manufacturing plant had mobilized its forces.

Thousands of toilers in mine and forest had sought raw materials.

Physicists and chemists, through laboratory research, had laid a sure foundation for efficient service.

All the forces and wonders of industry and science have been drawn upon to serve you when you make a long distance telephone call.

SRHYTAESHESIA SAVES WOMAN
FIGHT, MR. SINGH.
BOSS MURPHY WILL LEARN.

The air giant ZR-1, bigger than the biggest steamship, uses less than a gallon of gasoline per mile in her flight of 2,200 miles. A big ocean steamer would need two tons of coal to one gallon of gas for a giant flyer. That shows the difference in power needed to pust aside light air and heavy water and it tells you how cheaply men will travel in years to come if they get rid of "all the traffic will bear" slogan. It is quite probable that in future one day's work will earn the actual cost of a flight around the world.

Professor Richet of the French Academy of Medicine says woman possesses a faculty, called "Crytaethesia." That's a scientific name for intnition, woman's strange power to judge character at a glance, her ability instantly to tell truth from falsehood.

"Crytaeshesia" is older than the French Academy of Medicine, older than the pyramids. Women practiced that faculty a hundred thousand years ago, when their husbands came wandering in late from the cave across the valley. It's their one safeguard.

A baby kangaroo born in the Chicago Zoo is an inch long, about as wide as a lead pencil, and weighed nine grains. Once born, it climbs into its mother's pouch and stays there seven months, while it's hind legs grow strong.

A giant grizzly bear has a baby smaller than a kitten. Nature is hard on women. But science will fix that one of these days.

St. Nihal Singh, one of 300,000,000 Asiatics ruled in India by a few Englishman thousands of miles away, has a grievance. When family members of the British Empire meet, Canada, Australia and other colonies of European, stock are represented by elected delegates. India's vast crowd is represented by men selected by **Englishmen.**

As usual, the trouble is within. It's the same if you lack force in yourself—some outside force will rule you. Among the 300,000,000 Asiatics of India there dwell 100,000 Englishmen and they rule the 300,000,000, although they are outnumbered 3,000 to one. Could Mr. Singh imagine one Englishmen keeping down 3,000 Irishmen? In these days you only get justice when you fight for it. Even then it is slow.

In five thousand years, India has written millions of different books. And in all those books the word "Liberty" does not once appear. That's the trouble with India. Some day a man will come along, not a Ghandi, trying to fight Manchester with a spinning wheel, but some person of mixed race with thick hairy wrists, coarse hands, short stubby fingers. He'll let India elect her delegates to the British Empire's family reunion.

William Pastorio is in jail for throwing a cat out of the window, and the Supreme Court says it is unconstitutional to pass a law that would prevent driving thousands of young children into the mills and factories. Write that on your tablets. We can protect cats, not children.

Charles F. Murphy, who demands a wet plank in the Democratic platform for 1924, "was firing a shot at McAdoo's ambition," according to political reporters. McAdoo will welcome such shooting. Before 1924 ends each candidate will be trying to prove himself dryer than the others.

Mr. Emmons, president of the Electric Railway Association, says public ownership means Socialist government and an end of "a prosperous, sane nation."

Mr. Emmons is unnecessairly worried.

What about the post office? That's government ownership, and quite successful. Nobody imagines that any private company would carry a letter from Miami to Seattle for two cents.

What about the Panama Canal? That's government ownership and government construction as well. Quite successful after private effort failed.

It may be that Americans don't elect officials honest or capable enough to manage publicly owned monopolies. But they may do it some day.

Private capacity and monopoly is a greater menace to national prosperity and sanity than government ownership.

Tens of thousands of doctors have been turned loose with fraudulent medical diplomas. Thousands of others, with regular diplomas, know little or nothing about disease and its cures. Every doctor once in so often should be asked to prove that he knows the difference between scarlet fever and appendicitis.

# MANY GATHER AT PHILO HANDY'S BIER

## Funeral Friday Largely Attended—Masons In Charge at Grave

Impressive funeral rites were held Friday afternoon for Philo Handy, revered pioneer resident of Ukiah, whose death was recorded in last week's issue of The Republican Press.

**Many at Funeral**

The service was held at 2:30 o'clock at the Presbyterian church, the Rev. D. D. Breckinridge officiating in the presence of a large concourse of friends. The pallbearers were members of the Masonic lodge with which Mr. Handy had been affiliated for many years. They were Hale McCowen, Sr., J. L. McCraken, P. B. Westerman, Chas. M. Mannon, T. M. Cleland and Fren Dart.. A male quartet sang two numbers "Lead, Kindly Light" and "Beautiful Isle of Somewhere". The singers were W. S. Van Dyke, G. P. Anderson, J. R. Thomas and Will Van Dyke. Dr. Breckenridge paid tribute to the many sterling traits of character that marked Mr. Handy as a man of exceptional force in the development of the country. Following the services at the church the large funeral cortege gathered at the cemetery where the impressive Masonic rites were held. The many beautiful floral offerings testified mutely to the esteem of hundreds of friends for the true and faithful man who served his country, his state and his county for many years and whose cheerful disposition endeared him to all with whom he came in contact.

county infirmary it developed Nellie Knight, the victim, was 52 years of age. The juror's verdict was death had been caused by being struck by an automobile driven by unknown parties. Both arms, both legs and the neck were broken and the body was frightfully crushed. Death came a half hour after being hit. It was 30 minutes after Mrs. Knight was hit. It was 45 minutes after the woman was found before officers were informed of the affair. This long start gave the slayers a chance to escape.

**Tore Through Streets**

It was only the other night a big new car was tearing down State street at about 50 miles an hour. Nightwatchman Ornbaun happened to be on the street at the time and rushed into the middle of the pavement, waving his flashlight and calling on the driver to stop. Instead of doing so and despite the fact the machine in its mad course had to pass two sharp intersections, the motorist "stepped on her" and sent the car ahead at still greater speed, and it was impossible to get a line on the car.

Mr. and Mrs. Harmon, who reside on Main street, have declared to District Attorney Hurley they were motoring along the highway just before the accident and that a big enclosed car without any lights crowded them off the paving. Mr. Harmon called to the driver his lights were not on and the man at the wheel of the darkened machine yelled back a curse. Mr. and Mrs. Harmon say they met no other machine from the time the enclosed car passed them until they came upon the injured native woman and they were the first car to reach the victim.

## Your Question And Its Answer

QUESTION—"I suffer with continual colds, first in my head, then in my throat and broncals, and often the lungs are affected. If you can cure me, how long will it take?"

ANSWER—You certainly owe it to yourself to have your spine aligned that susceptibility t ocolds can no longer exist.. The time required to bring about this change is dependent, not upon the severity, character or location of the cold, but entirely upon the time requiredto correct what is causing the cold.. From experience we know that colds come only when the organs of elimination are not functioning properly.. These organs include the lungs, skin, kidneys and bowels.. Your susceptibility to colds will cease to exist when these four great channels of waste elimination are doing their work as Nature intended.. From an examination of your spine we will be able to give you more definte advice at to time required.

## HELP WANTED IN UKIAH

**And Furnished By the Help of Ukiah People.**

Those who suffer with kidney backache, urinary ills, or any little kidney or bladder disorder, want kidney help. Who can better advise than some Ukiah resident, who has also suffered, but has had relief. Ukiah people recommend Doan's Kidney Pills. Here's one case and there are many others. Ask your neighbor!

W. L. Sawyer, carpenter, 606 Dora St., Ukiah, Cal., says: "My kidneys got out of fix and I was in such a condition I could hardly get about. My back ached so I could hardly straighten and when I stooped I got sharp quick catches over my kidneys. My kidneys acted too freely. I used Doan's Kidney Pills from Gibson's Drug Store and they stopped the backache and put my kidneys in good order."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Sawyer had. Foster-Milburn Co. Mfrs., Buffalo, N. Y.

# 200 GALLONS RULING IS ONLY PROTECTIVE

## Internal Revenue Officers Are Lax On Taxing Home Beverage

Because a householder has filed a declaration of intention to make 200 gallons of non-intoxicating fruit juice, does not entitle him to exemption from seizure of the resulting wine by prohibition agents. This is the substance of an opinion rendered by the Internal Revenue Bureau last week to Monterey authorities. Recently several hundred Italian residents of Monterey petitioned the local police not to seize their home stock of wine ,alleging they had permission from the Internal Revenue Bureau to make 200 gallons.

**Turns to Wine**

Each year several thousand persons file with the Internal Revenue Bureau, declarations of intention to make not in excess of two hundred gallons of non-intoxicating fruit juices. Invariably this turns to wine, as was the purpose of the maker. In an opinion rendered to the Internal Revenue Bureau, Prohibition Director Rutter explicitly states that this declaration "does not give the householder any permission to make wine. It is merely a provision of the wine tax law exempting from taxation beverages for household purposes not in excess of 200 gallons. All over 200 gallons is subject to a tax. This regulation was made before the eighteenth amendment became effective, being part of a war tax on wine.

**Not Protective Measure**

"It has not been the practice of the Prohibition Department to interfere with and householder who has 200 gallons of this grape juice, even though it has fermented into strong wine. That is, providing the owner does not attempt to sell or transport it. If we find evidence of bootlegging sufficient to procure a search warrant and on entering a man's premises we find a lot of wine, it is seized and he is prosecuted, whether he has filed this declaration or not. The wine is solely for family purposes. We do not even issue permits to move such wine unless it was made before prohibition became effective. A case involving this home manufacture of fruit juice which turns to wine without any help from the owner is now before the Federal courts for a decision."

E. J. James, who had been at Eureka on timber matters several days came home from the north in the car with his son, Edw. W. James and wife, when the latter motored here recently.

**FACTS ABOUT THE TELEPHONE**

The City of Chicago has about the same number of telephones as the entire continent of Asia.

The City of Cleveland has more telephones than the entire continent of Africa.

The long distance telephone line between New York and Chicago, 900 miles long, was first opened t othe public in 1892.

At the present time there are 15,000,000 poles carrying the telephone circuits of the Bell System—poles enough to build a railroad trestle from Chicago to Buenos Aires.

**AGAINST THE LAW**

Parties who are in the habit of doing so should be careful hereafter regarding cutting Toyon berries not belonging to them, or getting consent of the owners of land on which they grow before doing so.

The law in this connection, enacted in 1921, makes it a misdemeanor for any person, firm or corporation to mutilate or destroy any Toyon or Christmas red berry tree growing on public or private land, unless the owner gives his consent thereto; or, who sells, offers or exposes for sale any such grown on land in this state; provided that this shall not prevent the sale of such Christmas red berry taken from privately owned land by, or with the consent of the owner of the land.

**WHALE 100 YEARS OLD**

According to a San Francisco paper, a large whale was recently taken off the Mendocino coast by the ship of the Trinidad Station, and while cutting away the blubber ,the head of a harpoon was discovered bearing the marks, "Massachusetts 1820," whale experts believe the whale to be an old one and that he has been carrying this harpoon head for over 100 years. He was a big one and weighed over 80 tons.

**FORM A CLUB**

**Athletic Organization To Be Provided For In This City**

Believing an athletic club is needed here a number of business men are arranging with Paul Poulos to start one. The organization will probably be allowed to use the Firemen's Gymnasium, additional appliances will be purchased, a big membership obtained and an attempt made to form physical culture classes for women, girls and boys. The first meeting is scheduled to take place at the Firemen's Gymnasium tonight.

Where's the Man or Boy who doesn't want a Bang-up Knife for Christmas

THERE'S something about a fine, sturdy pocket knife that reaches right down into the heart of man and boy alike.

But it has to be a *real* knife—make no mistake about that!

Here are shown a dozen *Remington* pocket knives—as Christmas suggestions.

Every one is a *practical cutting tool.* The blades are sharp and will cut. The handles hold on. The springs keep their strength.

Your dealer can show you these Remington Knives—and many others in all combinations of blades and handles in a wide range of prices—50¢ to $10.

Probably when you see them you'll decide to give him *more* than one.

One for his pocket or watch-chain—and another perhaps for working around the car. Or a Remington Camper's Knife if he loves camping, hiking, or fishing.

Anyhow, before you decide look at *all* the different kinds of Remington Pocket Knives at the store. Be sure to see the Official Knife—Boy Scouts of America.

# Tan Bark News

H. B. Muir returned from San Francisco on Thursday. He reports that the past season has been a satisfactory one for the tan bark producers; that all tanners are well supplied with bark.

The Sunset Trading & Land Company will immediately begin to arrange to produce bark for 1924 to supply the tanneries of Kullman, Salz & Company. Its policy is to produce from its own lands all of its requirements that can not be bought from independent producers.

Anyone that will have bark for sale during 1924 can let the Sunset Trading & Land Company of Willits hear of it. Anyone desiring to take a contract to get out bark will do well to let it be known also.

## Poem by Uncle John

O, the old feather bed was a package of joy, when draped in its trappings of state. . . . If I had a legion of words to employ, I'd use 'em, lamentin' its fate. We've banished the goose-hair, an' took the pad of corn-shucks, an' shavin's, an' moss. . . . Till I am afflicted an' gloomy an' sad, at the mattress they stretched me across! I'm weary in muscle—distracted in bone—and it don't help me any to cuss. . . . It might be more healthy to bunk on a stone, but it's equal to sickness, or wuss! I dream of the feathers that cushioned my frame, in the halcyon nights of the past. . . . We were born on the feathers, an' died on the same, and the grandchildren got 'em at last. . . . O, the old feather bed was a builder of dreams—a cure for all species of wrath—we sunk in its blubbers an' sweat in its seams—an' nobody needed a bath. . . . It may have helt microbes an' vermin galore, from the spores of the flea to the toad, but it had 'em all skinned as a good place to snore, and we broke out with heat, when it snowed!

### THE TRUTH
### "—is also found in frank confession of error"

*The Republican Press will be glad to receive and publish corrections of inaccuracies in its columns.*

### THE JOHNSON ASPIRATION

ABOUT the state one hears rumblings of what will probably be a fight to a finish. Although the Richardson element is not out in the open, so far, it is extremely probable the state administration will be found doing all it can to prevent the state delegation to the national convention being for Senator Johnson for president. What the outcome will be is extremely doubtful.

Candidly the Johnson campaign is not receiving the support in the east it was thought it would. Taken at random, the following extracts from metropolitan newspapers of the east, indicates a lack of sympathy with the Johnson cause which, if it represents the actual sentiment prevailing, is going to make it hard to figure out how Senator Johnson is going to "get away." The Brooklyn Eagle says: "The strength that Johnson may draw from Republican discontent, particularly in the West and Middle West, will have to be very large to overcome the distrust in which he is held by the more conervative party elements."

The Hartford Courant says: "We hope and believe that it is impossible that Johnson will be nominated for President by the Republican party. Nor does this paper believe that he will find any country-wide enthusiasm for his candidacy outside that party."

The Detroit News antagonistically declares: "The people of the United States have yet to elect to the presidency a man who announced to them that he was their self-appointed candidate. But there are other reasons why they should look askance at Senator Johnson's voluntary candidacy."

"The task that confronts Senator Johnson is a pemanent one," the New York Evening Post writes. "He must make himself the perpetual prophet against backsliders, the perpetual guardian on the towers of our national safety; the perpetual candidate, in short. The Hiram Johnson conception of foreign policy of the United States calls for a permanent holy war of the isolators against vacillators."

The Boston Transcript has supported Johnson in his stand against the League of Nations, but it now finds itself faced with the candidacy of the Californian as against that of President Coolidge, former Massachusetts Governor.

"With all that Senator Johnson says in his Chicago statement concerning what our foreign policy should be we are in the heartiest accord. All that and more we hope to see it become under the leadership of President Coolidge. In temperament and method Johnson and the man in the White House are far apart, further probably than they are in their governmental aims. Mr. Coolidge is a moderate who cherishes a conservative philosophy of life; Mr. Johnson a radical with a direct program. Mr. Coolidge a believer in party government and the representative method; Mr. Johnson prefers direct action to representative and lacks the sense of party sponsorship in government which has always distinguished the man in the White House.'

### REAL SUCCESS

HERE is a bit of reading worth while. After you have perused it once, set it aside and read it again. It will make you better through having done so. The author is, to The Press, unknown:

When he can look out over the rivers, the hills and the far horizon with a profound sense of his own littleness in the vast scheme of things, and yet have faith, hope and courage, which is the root of every virtue. When he knows that, down in his own heart, every man is as noble, as vile, as divine, as lonely as himself; and seeks to know, to forgive and to love his fellow man. When he knows how to sympathize with men in their sorrows—even in their sins, knowing that each man fights a hard fight against many odds. When he has learned how to make friends and keep them; and above all to keep friends with himself. When he loves flowers; can hunt the birds without a gun; and feels the thrill of an old forgotten joy when he hears the laughter of a little child. When he can be happy and high-minded among the meaner drudgeries of life. When no voice of distress seeks his aid without response. When he finds good in every faith that helps and sees majectic meaning in life, whatever the name of that faith may be. When he can look into a wayside puddle and see something beyond mud, and into the face of the most forlorn fellow mortal and see something beyond sin. When he knows how to pray; how to love; how to hope. When he has kept faith with himself, with his fellow-man, with God; in his hand a sword for evil; in his heart a bit of a song; glad to live and not afraid to die. Such a man has found the only real secret of success.

Long Distance Service

FROM fifteen to twenty-one telephone operators cooperate in establishing a New York-San Francisco circuit; and other telephone employees by scores must be at their posts to insure efficient transmission.

That you may have a choice of destination for your voice, a vast network of Bell System circuits interconnects all important centers, reaching millions of homes and business places.

Over these circuits more than 158,000 traffic employees stand guard. But long before these highways of speech were ready for use another army of workers had wrestled with problems of construction and maintenance.

A huge manufacturing plant had mobilized its forces.

Thousands of toilers in mine and forest had sought raw materials.

Physicists and chemists, through laboratory research, had laid a sure foundation for efficient service.

All the forces and wonders of industry and science have been drawn upon to serve you when you make a long distance telephone call.

### CHEAP TRANSPORTATION. SRHYTAESHESIA SAVES WOMAN FIGHT, MR. SINGH. BOSS MURPHY WILL LEARN.

The air giant ZR-1, bigger than the biggest steamship, uses less than a gallon of gasoline per mile in her flight of 2,200 miles. A big ocean steamer would need two tons of coal to one gallon of gas for a giant flyer. That shows the difference in power needed to pust aside light air and heavy water and it tells you how cheaply men will travel in years to come if they get rid of "all the traffic will bear" slogan. It is quite probable that in future one day's work will earn the actual cost of a flight around the world.

Professor Richet of the French Academy of Medicine says woman possesses a faculty, called "Crytaethesia." That's a scientific name for intnition, woman's strange power to judge character at a glance, her ability instantly to tell truth from falsehood.

"Crytaeshesia" is older than the French Academy of Medicine, older than the pyramids. Women practiced that faculty a hundred thousand years ago, when their husbands came wandering in late from the cave across the valley. It's their one safeguard.

A baby kangaroo born in the Chicago Zoo is an inch long, about as wide as a lead pencil, and weighed nine grains. Once born, it climbs into its mother's pouch and stays there seven months, while it's hind legs grow strong.

A giant grizzly bear has a baby smaller than a kitten. Nature is hard on women. But science will fix that one of these days.

St. Nihal Singh, one of 300,000,000 Asiatics ruled in India by a few Englishman thousands of miles away, has a grievance. When family members of the British Empire meet, Canada, Australia and other colonies of European stock are represented by elected delegates. India's vast crowd is represented by men selected by **Englishmen.**

As usual, the trouble is within. It's the same if you lack force in yourself—some outside force will rule you. Among the 300,000,000 Asiatics of India there dwell 100,000 Englishmen and they rule the 300,000,000, although they are outnumbered 3,000 to one. Could Mr. Singh imagine one Englishmen keeping down 3,000 Irishmen? In these days you only get justice when you fight for it. Even then it is slow.

In five thousand years, India has written millions of different books. And in all those books the word "Liberty" does not once appear. That's the trouble with India. Some day a man will come along, not a Ghandi, trying to fight Manchester with a spinning wheel, but some person of mixed race with thick hairy wrists, coarse hands, short stubby fingers. He'll let India elect her delegates to the British Empire's family reunion.

William Pastorio is in jail for throwing a cat out of the window, and the Supreme Court says it is unconstitutional to pass a law that would prevent driving thousands of young children into the mills and factories. Write that on your tablets. We can protect cats, not children.

Charles F. Murphy, who demands a wet plank in the Democratic platform for 1924, "was firing a shot at McAdoo's ambition," according to political reporters. McAdoo will welcome such shooting. Before 1924 ends each candidate will be trying to prove himself dryer than the others.

Mr. Emmons, president of the Electric Railway Association, says public ownership means Socialist government and an end of "a prosperous, sane nation."

Mr. Emmons is unnecessairly worried.

What about the post office? That's government ownership, and quite successful. Nobody imagines that any private company would carry a letter from Miami to Seattle for two cents.

What about the Panama Canal? That's government ownership and government construction as well. Quite successful after private effort failed.

It may be that Americans don't elect officials honest or capable enough to manage publicly owned monopolies. But they may do it some day.

Private capacity and monopoly is a greater menace to national prosperity and sanity than government ownership.

Tens of thousands of doctors have been turned loose with fraudulent medical diplomas. Thousands of others, with regular diplomas, know little or nothing about disease and its cures. Every doctor once in so often should be asked to prove that he knows the difference between scarlet fever and appendicitis.

### ONE DESERVES ANOTHER

Maude—"What a beautiful new gown Helen is wearing. Says it's imported, dosen't she?"

Marie—"Not exactly in those words. It's her last season's dress. The dress-maker has turned it inside out, and now she says it's from the other side."—**Boston Transcript.**

county infirmary it developed Nellie Knight, the victim, was 52 years of age. The juror's verdict was death had been caused by being struck by an automobile driven by unknown parties. Both arms, both legs and the neck were broken and the body was frightfully crushed. Death came a half hour after being hit. It was 30 minutes after Mrs. Knight was hit. It was 45 minutes after the woman was found before officers were informed of the affair. This long start gave the slayers a chance to escape.

Anyone having any information which will assist the officers in any manner should acquaint officials with what they know or have heard. The officers have agreed not to divulge the source of their information.

**Tore Through Streets**

It was only the other night a big new car was tearing down State street at about 50 miles an hour. Night-watchman Ornbaun happened to be on the street at the time and rushed into the middle of the pavement, waving his flashlight and calling on the driver to stop. Instead of doing so and despite the fact the machine in its mad course had to pass two sharp intersections, the motorist "stepped on her" and sent the car ahead at still greater speed, and it was impossible to get a line on the car.

Mr. and Mrs. Harmon, who reside on Main street, have declared to District Attorney Hurley they were motoring along the highway just before the accident and that a big enclosed car without any lights crowded them off the paving. Mr. Harmon called to the driver his lights were not on and the man at the wheel of the darkened machine yelled back a curse. Mr. and Mrs. Harmon say they met no other machine from the time the enclosed car passed them until they came upon the injured native woman and they were the first car to reach the victim.

# Your Question And Its Answer

QUESTION—"I suffer with continual colds, first in my head, then in my throat and broncals, and often the lungs are affected. If you can cure me, how long will it take?"

ANSWER—You certainly owe it to yourself to have your spine aligned that susceptibility t ocolds can no longer exist.. The time required to bring about this change is dependent, not upon the severity, character or location of the cold, but entirely upon the time requiredto correct what is causing the cold.. From experience we know that colds come only when the organs of elimination are not functioning properly.. These organs include the lungs, skin, kidneys and bowels.. Your susceptibility to colds will cease to exist when these four great channels of waste elimination are doing their work as Nature intended.. From an examination of your spine we will be able to give you more definte advice at to time required.

# HELP WANTED IN UKIAH

**And Furnished By the Help of Ukiah People.**

Those who suffer with kidney backache, urinary ills, or any little kidney or bladder disorder, want kidney help. Who can better advise than some Ukiah resident, who has also suffered, but has had relief. Ukiah people recommend Doan's Kidney Pills. Here's one case and there are many others. Ask your neighbor!

W. L. Sawyer, carpenter, 606 Dora St., Ukiah, Cal., says: "My kidneys got out of fix and I was in such a condition I could hardly get about. My back ached so I could hardly straighten and when I stooped I got sharp quick catches over my kidneys. My kidneys acted too freely. I used Doan's Kidney Pills from Gibson's Drug Store and they stopped the backache and put my kidneys in good order."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Sawyer had. Foster-Milburn Co. Mfrs., Buffalo, N. Y.
